PITCHING PARTNERSHIP AND HITTING HOMERUNS:
2013 CORPORATE PARTNER RETREAT

On Wednesday, Aug. 7, 2013, over 30 employers met with the Center For Career and Professional Development (CCPD) staff at Clemson University at the Falls in downtown Greenville.

Providing a chance to learn and network, the Corporate Partner Retreat has become an important annual event for all involved. With new additions to the event's format, location, and programming, this year’s retreat proved to be the most ambitious yet.

Dr. Neil Burton, Executive Director of the CCPD, provided a report on career counseling services, online resources, career fairs, and internships and cooperative education experiences. Under the title, “The Time is Now,” Burton’s presentation outlined the ways in which in-office facilities and resources are encouraging student visits. Burton praised the role of technology in collecting center data.

The day’s Keynote Speaker, Sean Williams, challenged employers to listen to young people by engaging them in a discussion on the generational lines between Baby Boomers, GenXers, and Millennials. He focused on how generational work values vary between students and employers.

Networking did not stop at the Falls campus. An ice cream/Fro Yo Social and a Greenville Drive baseball game punctuated the day's sessions with opportunities for employers to connect with CCPD staff.

Every year, the Corporate Partner Retreat demystifies many aspects of the CCPD's operations and its work with Clemson students. Because employers’ perspectives are at the heart of the CCPD Corporate Partner Program, the takeaways from this year’s event look to further benefit students.

A panel discussion concluded the day's formal presentations. Populated by members of the CCPD staff, the panel offered a forum for employers to ask questions, make requests, and generally reflect on the many services that the center provides.

Counseling Survey Results

Percentage of students who answered “agree” or “strongly agree” to the following statements:

98%
After talking with a career counselor, I know what my next steps are.

95%
After talking with a career counselor, I can articulate how my skills, interests, and values impact my career or major choice.

77.7%
77.7% of the class of 2013 who persisted to graduation did participate in one-on-one counseling sessions or attend career center workshop/class presentations.

63.3%
63.3% of the juniors who did not return as seniors in 2012 - 2013 did not participate in one-on-one counseling sessions or attend career center workshop or class presentations.

68.1%
In a 5-year study of students who did not persist to graduation, 68.1% did not participate in one-on-one counseling sessions or attend career center workshop or class presentations.

NOTE: these statistics do not include students who attended career fairs, orientation sessions, or on-campus interviews.
### Setting our Clocks Ahead

**Michelin® Career Center**

As a result of participating in the CU101 & BUS 101 Major and Career Interest Presentations:

- **97.5%** of 1,034 students in CU101 and BUS101 could list at least two work values
- **90.5%** of 1,034 students in CU101 and BUS101 could identify a career interest or major

As a result of participating in the graduate student workshop series:

- **100%** of 313 students who completed a post-workshop survey said they would recommend MCC’s services to a friend

NACE Class of 2013 Survey Report

Median Salary Rises 5.3%

NACE’s April 2013 Salary Survey report shows the overall median starting salary for a bachelor’s degree graduate has risen to $44,928 from the final median salary of $42,666 for the Class of 2012. More information is available online.

Intern Pay Holds Steady for 2013

NACE’s 2013 Internship & Co-op Survey found the average salary for bachelor’s degree interns ticked up just 0.3% to $16.26 per hour from $16.21 per hour last year. “However, interns in several majors at the bachelors degree level earned average salaries that topped $18 an hour,” notes Marilyn Mackes, NACE executive director.

Engineering ($20.36), computer science ($18.96), and mathematics ($18.15) majors had the highest average hourly wages among bachelors degree level interns. Meanwhile, the average salary for masters degree interns dipped from $21.93 per hour last year to $21.90 per hour this year, representing a decrease of 0.1%.

At $24.43 per hour, engineering majors earned the highest average salary among masters interns, followed by physical sciences ($23.58), mathematics ($23.40), and business ($23.02) majors. More information is available online.

For more information...

Several departments at Clemson are collaborating to bring information from the graduation survey to perspective students.

To see where students from each major are headed after graduation, visit Clemson’s Majors web page. Information is available for all undergraduate and graduate programs.

Experiential learning provides students with opportunities to be active and intentional learners. The goal is for students to apply their knowledge in professional environments and engage in career-related experiences in a variety of settings. Now, more than ever, employers look to hire college graduates with career-related experiences in their field.

### Supervisor / Mentor Survey Results

### Time Well Spent
**Internship Courses**

Instructors correspond with students via the web, which enables students to intern on national and international levels as well as on-campus.

### Cooperative Education Program

The Cooperative Education Program provides an opportunity for students to alternate semesters of academic study with semesters of paid, career-related, engaged-learning experiences. The emphasis of this academic program is student learning and the student’s experience is monitored by the University. Through this program, employers serve as teaching partners of the University and the Co-op experience becomes an integral part of the student’s education. The program serves to bridge the gap between academic study and its application in professional practice. Cooperative Education represents a partnership among the University, the student, and the participating employer. Visit the [cooperative education web page](#) to learn more about the program.

### Total Students in the Co-op Program

Student engagement is one of Clemson University’s four areas of investment for its 2020 Road Map. To meet this goal, the CCPD developed the UPIC program that will provide 500 experiential learning opportunities (internships and co-ops). Students can apply for the opportunity to work closely with members of Clemson’s faculty or administration and receive significant work to help them prepare for future careers.

Students can intern part-time or full-time, earn pay, and have the internship noted on their official transcripts. Ideally the initiative will assist in the creation of campus-wide culture that involves students partaking in meaningful and relevant developmental experiences. Visit the UPIC webpage to learn more about the program.

UPIC by Numbers:
- Spring 2012: 17 students on UPIC assignments
- Summer 2012: 21 students on UPIC assignments
- Fall 2012: 51 students on UPIC assignments (967 applicants)
- Spring 2013: 54 students on UPIC assignments (408 applicants)
- Summer 2013: 59 students on UPIC assignments (565 applicants)

Total for 2012-2013: 164 UPIC assignments with 1,940 applicants

211 Site Visits Conducted

26.2%
Increase over 2012 - 2013 Projections
- 130 Projected in ’12 - ’13
- 164 Actual in ’12 - ’13

What UPIC interns are saying:

“In multiple interviews, I was able to point to my internship and several things I have done to help boost my resume. I gained practical experience that I can honestly say will help me in the future. I gained invaluable experience that is more than just another bullet point on my resume.”

Senior, spring 2013 internship

“I have learned the Revit program better than most professional architects because I had so much time to figure out the minute details of the program. I also learned a lot about the University and how they deal with projects in general. I have become a much better candidate for job placement through this internship.”

Senior, spring 2013 internship

“I love the program, I love the networking and I love the concern the coordinators have about students’ futures. Everything the UPIC program is doing is fantastic and has contributed greatly to my post-graduate success.”

Senior, spring 2013 internship

NACE Class of 2013 Survey Report

Majority of Seniors Engaging

NACE’s 2013 Student Survey found that 63.2% of graduating seniors from the Class of 2013 reported having taken part in an internship, co-op, or both.

“This represents the highest overall participation rate since we began tracking this with the Class of 2007,” says Marilyn Mackes, NACE executive director. Earlier rates didn’t exceed 57%, reported for the Class of 2008.

Among graduating seniors, 52.2% were paid and 47.8% were unpaid. An overwhelming percentage of paid interns - 72.9% - worked in the for-profit, private sector, while 16.4% worked for nonprofits and 10.6% worked for state, local, or federal government agencies.

Among unpaid internships, 38.1% were conducted in the for-profit, private sector; these internships, and the organizations that offer them, are subject to the Fair Labor Standards Act (FLSA).

(Note: A recent court ruling on unpaid internships at an entertainment organization held that the organization had violated the FLSA and should have paid its interns.) More information is available online.

TIGERS GO TO WASHINGTON - RE-ENVISIONED

President Barker charged the MCC to increase the number of student interns in the Washington D.C. area. The MCC and CBBS’s Office of Student Enrichment re-envisioned the event known as Washington Career Day.

In 2013, the event series increased participation from 50 students to 260 students. The number of professionals on the panel also doubled from four to eight.

In 2014, the MCC will expand the program by providing seminars on topics including: writing resumes, navigating usa-jobs.gov, and identifying opportunities within the government for STEM and liberal arts majors.

It will also be connecting with the Clemson Club of Baltimore/Washington D.C. to advertise opportunities for students to engage with the group while in the area and will explore taking a group of students to Washington D.C. to network with the Clemson Club.

29% of students who attended the networking events reported accepted a D.C. area position

100% of attendees reported feeling prepared for the event series
88% of attendees reported having worthwhile conversations
81% of attendees reported accruing additional resources to assist them
46% of attendees reported following up with at least one panelist
21% of attendees reported connecting with the Clemson Club of Baltimore/Washington D.C.

“Throughout the screening and interview process, we see a significant difference between the candidates who have and have not used Clemson’s career center’s services.”
– Michelin® North America Representative
Robbie Lake

“I had to share as a very positive outcome from your Tigers go to Washington Program! You’ve already helped a student get to D.C. and intern with a Senator. I’m so excited for him. Thanks for all you and your team are doing for Clemson students.”
– Tigers Go To Washington, Lisa Accordini, ’87

“...I learned about professional and personal life in D.C. It was great getting different perspectives and learning information not available anywhere else on campus.”
– Junior, Tigers Go To Washington Post-Event Survey

Setting our Clocks Ahead
Engaging with the Future Work Force
Partners received at least 20 opportunities during the year to engage with students by conducting resume critiques and class or workshop presentations.

Employer Perspective

23% of attendees reported following up with at least one panelist

GOING GLOBAL

Going Global is the ultimate international job seeker's guide! Updated continually, this massive research tool contains more than 10,000 resources for finding employment at home and abroad. Students seeking internships and employment abroad will value the country guides found within Going Global. International students seeking employment within the United States will value both the USA Country Guide and the extensive H1B database of employers who frequently hire H1B candidates. Visit our web page to access Going Global.
STRONG INTEREST INVENTORY

Based on John Holland’s Six Career Personality Types, The Newly Revised Strong Interest Inventory is a tool that can help high school students through adulthood to evaluate their work interests. This assessment can show how students’ interests compare to those of professionals in hundreds of occupations. Students may come by the Michelin® Career Center Library, 316 Hendrix Student Center to take this assessment during office hours. Alternately, students may choose to take the assessment online and then calling to schedule an appointment to assess the results. All students must make an appointment with a counselor to view the results of their assessments. Visit our webpage to access our career assessment tools.

INTERVIEW STREAM

The Interview Stream system offers students the chance to digitally record an unlimited number of practice interviews from the Interview Stream kiosk at the career center or from a student’s home computer (equipped with a web-cam and appropriate software). Students can schedule appointments online, select interview questions to practice answering, access resume and interviews online, and email practice interview videos to career counselors, professors, employers or parents. This free service is available to all students, faculty, alumni, and employers. Visit our web page to access Interview Stream.

NEW FOR 2013 - 2014: Versatile PhD

The MCC partnered with the Graduate School to bring a Versatile PhD to Clemson students. The site demystifies nonacademic careers for students with advanced degrees. It shows plausible career paths and provides robust support. First-person narratives written by humanities and social science PhDs and ABDs who have established non-academic careers, describe how they did it and share their advice from experience. There is also a thriving, supportive, web-based community where students and professionals can connect. Visit our webpage to access Versatile PhD.
Career Development
Provide quality career education programs, resources, and services that empower undergraduate and graduate students to make effective career choices

Internship Programs
Provide on- and off-campus internship programs and opportunities that afford learning experiences related to students’ majors and/or career interests

Cooperative Education Program
Provide engaged-learning experiences over multiple semesters whereby students learn and work under a mentor in their field of study

Employer Relations
Cultivate partnerships with organizations that result in career opportunities for Clemson students

Vision Statement
Connecting educational experiences with professional aspirations.

Mission Statement
Engaging students in career development and experiential learning activities that will empower them to successfully pursue their educational and professional goals.

Diversity Statement
We strive to educate ourselves and others about the issues of a pluralistic society. We are committed to reaching beyond views of individuals to value a community that appreciates and learns individuals’ similarities, and differences. Our services and programs seek to create a safe environment that affirms the dignity and worth of everyone. We demonstrate the commitment by embracing differences, including those differences that are not visually apparent.

We welcome and serve people regardless of gender, ethnicity, race, sexual orientation, age, citizenship, religion, socioeconomic status, and physical and mental abilities. In addition, we encourage employers to maintain a similar philosophy and commitment to diversity.
