

EMPLOYER NEWSLETTER

SUMMER 2016

This year has involved many changes to the **Michelin® Career Center**. From the introduction of a new fair format to new events like the **Senior Only Series**, we are making changes that are helping Clemson students find the career of their dreams.

Spring Career Fair

This spring, we organized the campus-wide Career Fair a little differently. Instead of allowing all industries to come two days, we separated the Fair into two separate days by industry and major type. Day one was called the **Engineering, Computing and Sciences Fair**. Day two was called the **Business, Non-Profit and Government Fair**. Separating the Fair into two days allowed attendees to be more specific in what jobs and majors they were looking for. This saved our recruiters and students time and energy by narrowing the focus of each Fair day.

After-Fair Interviews

After-Fair interviews were held in Memorial Stadium this year. Due to the large number of students interviewed in the fall, we planned ahead to have interviews in a larger venue this spring. After the Engineering, Computing and Science Fair, **277 students had interviews with 37 different employers** on campus. Unfortunately, due to inclement weather, we had to postpone all interviews from the Business, Non-Profit and Government Fair.

Senior Only Series

In fall 2015, we hosted an inaugural Seniors Only Series. **We had over 40 students attend the first evening** to learn more about the interview process and professional etiquette and participate in lightning round mock interviews with employers from various industries.

On Dec. 1, The Vanguard Group presented on financial literacy. Students learned the importance of establishing good credit and investing!

We held the series again in February and had a great presentation from Sherwin-Williams on the interview process. Our students loved the lightning round mock interviews and having the opportunity to interact with representatives from companies Waffle House, Itron and NetApp.

Reminder! For the best results when recruiting at Clemson, make sure to update your company information on ClemsonJobLink. We hope each of you will find time to visit Clemson and meet some of the country's best and brightest students this semester. Go Tigers!

SAVE THE DATES
